About This Book

Good grammar is essential to English language learning. The correct use of grammar enables one to write meaningful sentences and makes it possible for one to communicate clearly and effectively. **|Conquer| English Grammar Workbook 5** is written with the sole aim of helping students to use the language effectively.

1000 Questions

100 exercises, 10 questions each: 62 focussed exercises and 38 revision exercises on specific grammar items.

Specific Focus

The exercises are grouped according to selected grammar items for focussed learning.

Notes and Examples for Efficient Learning

Useful notes and examples that illustrate how the answers can be derived are provided at the beginning of each exercise for efficient learning.

Performance Record

Incorporated in the table of contents, the marks column gives students a quick and easy way to record and track their progress.

From STEM to STEAM to STREAM!

STREAM | **Science** | **Technology** | **Reading** | **Engineering** | **Arts** | **Maths**

STREAM (Science, Technology, Reading, Engineering, Arts and Mathematics) plays an important role in all education systems. A vast array of subjects falls into each of the categories: aerospace, biochemistry, civil engineering, nuclear physics, robotics, history, literature and many others. In fact, these are all encountered one way or another in our everyday lives.

Language literacy transforms learning. Rich content, in the right contexts that illustrate STREAM concepts, enriches a student's learning journey, promotes greater awareness and comprehension of the various fields, and provides opportunities to engage with others who share similar interests. An interdisciplinary approach to education, built around core elements such as problem-based learning and rigorous training, continues to encourage a student to read extensively, use technology and scientific knowledge appropriately, and apply mathematics intelligently to real-world situations.

Enhanced Learning
